

House Edge Cheat Sheets

House edge is the casino's built-in long-term advantage. Lower percentages favor players. Higher percentages drain bankroll faster.

Game	Best Bet	House Edge
Blackjack (basic strategy)	Standard play	≈ 0.5%
Baccarat	Banker	1.06%
Craps	Pass/Don't Pass + Odds	1.36%–1.41% (0% on Odds)
Roulette (European)	Single Zero	2.7%
Roulette (American)	Double Zero	5.26%
Slots	Varies by RTP	2%–15%+

Quick Rules:

- Avoid 6:5 blackjack tables.
- Choose European or French roulette over American.
- Ignore Tie bets in baccarat (≈14% edge).
- Avoid high-volatility slot sessions if bankroll is limited.
